

Quality Policy

Svarvmekano i Malmö AB shall be a highly regarded and market-leading supplier of mechanically machined components.

Our goal is to be the natural choice for our stakeholders when high demands on efficient high-quality processes are demanded.

Svarvmekano i Malmö AB stands for:

- Quality and delivery precision according to stakeholders' requirements and demands.
- Efficient production to ensure good finances for us and for our stakeholders.
- A well- developed management system that complies with the business requirements.
- High competence and participation of all employees.
- Active work with continuous improvements

With high investment rate we can meet and ensure stakeholders increasing requirements and that our own goals are met.

Even though all employees have the level of competence required to be able to deliver in a safe and efficient manner in accordance with stakeholders' requirements and wishes, we ensure that there is a persistent increase in competence in the business.

We are proud but not satisfied and strives for continuous improvements.
